**New books**

**Warm colors  
& vibrancy**

**Learning centers revitalized with  
new shelving & furniture**

**Improved technology**

## READesign® Program

*Since the late 1980s, research has shown a positive relationship between school libraries and student achievement. These libraries positively influence students' progress when it comes to reading scores, literacy rates and general learning.*

♥ READesign® aims to transform school libraries by:

- **Redecorating the library space** with new furnishings to provide a warm, vibrant & engaging space for learning
- **Replenishing resources** with 2,000 new age-appropriate books & state-of-the-art technology
- **Reviving children's love of reading** by providing each student of the school with 5-7 new books to build or add to their home collection
- **Renewing support** by bringing together volunteers, school staff, students and their families in communities across the country
